

Shivanshu Gupta

Full Stack Developer | React.js, Node.js, Express.js, MongoDB | MERN Stack

Firozabad, Uttar Pradesh, India | +91 9368220357 | rajkishoregupta716@gmail.com | github.com/shivanshugupta456 | linkedin.com/in/shivanshu-gupta-5122193aa

PROFESSIONAL SUMMARY

Full Stack Developer with experience building responsive web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, JWT authentication, frontend development, backend development, API integration, and user-centered UI implementation. I also build Generative AI-based applications using LLM APIs, prompt engineering, and modern UI integration to create practical, user-friendly experiences. Strong foundation in Data Structures, Algorithms, database design, and problem solving. Seeking a Full Stack Developer role to contribute to scalable product development.

TECHNICAL SKILLS

Core Skills: Full Stack Development, Frontend Development, Backend Development, REST API Development, JWT Authentication, CRUD Operations, Responsive Web Design, UI Implementation, Performance Optimization, Debugging, Database Design, API Integration, Real-time Communication

Languages: JavaScript (ES6+), Java, Python, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Axios, MERN Stack

GenAI & AI Tools: LLM APIs, Prompt Engineering, AI-assisted workflows, Generative AI application development, Streamlit

Databases & ORM: MongoDB, MySQL, Mongoose ODM

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Render, NPM, REST Client, JSON

Deployment: Vercel, Render, Environment Configuration, CI/CD Workflows

EXPERIENCE

Full Stack Developer | Personal Projects

2024 - Present

- Built and improved web applications using React.js, Node.js, Express.js, and MongoDB with a focus on responsive UI, practical functionality, and clean user experience.
- Developed projects involving authentication, CRUD workflows, API integration, real-time communication, and modern frontend and backend development.
- Worked on Generative AI-based applications by integrating LLM APIs, applying prompt engineering, and delivering interactive user experiences.

PROJECTS

Course Discovery Platform | Jan 2026 - Jul 2026 | React.js, JavaScript, Tailwind CSS

[Live Demo](#) | [GitHub](#)

- Developed a course discovery platform with filtering, category-based browsing, and search functionality to improve content discoverability and user navigation.
- Managed application state using React Context API and custom hooks to improve component structure, reusability, and frontend maintainability.
- Designed a responsive interface optimized for desktop, tablet, and mobile screens with consistent UX across all breakpoints.

Blog Platform | Jan 2026 - Jul 2026 | React.js, JavaScript, Tailwind CSS, Markdown

[Live Demo](#) | [GitHub](#)

- Developed a blog platform with article publishing, Markdown rendering, and structured post organization for technical content creators.
- Implemented syntax highlighting for multiple programming languages to improve readability for developer-focused content.
- Added SEO-focused meta tags and Open Graph support to improve page discoverability and social sharing engagement.

GENAI PROJECTS

Multi-Agent Research System | Jan 2026 - Jul 2026 | Streamlit, LLM APIs, Prompt Engineering

[Live Demo](#) | [GitHub](#)

- Built an AI-powered research assistant using Streamlit to create an interactive and user-friendly interface.
- Integrated LLM-based workflows to support multi-step research tasks, content generation, and intelligent responses.
- Applied prompt engineering and structured input handling to create a practical Generative AI experience with clear output delivery.
- Developed Generative AI-powered applications and assistants by integrating LLM APIs with web interfaces for interactive user experiences.
- Applied prompt engineering and workflow design to create intelligent features such as content generation, conversational assistance, and task automation.
- Focused on building practical AI solutions that combine strong frontend experience with reliable backend integration and clean user interactions.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering | 2023 - 2027

ACE College of Engineering and Management, Agra | Dr. A.P.J. Abdul Kalam Technical University, Lucknow

COURSEWORK AND CERTIFICATIONS

Certification: Alpha Course - Data Structures & Algorithms with Java by Shraddha Khapra

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Web Development, Software Engineering

Practice: Solved 100+ algorithmic problems across arrays, trees, graphs, and dynamic programming using Java and Python.
