

Shivanshu Gupta

Full Stack Developer | React.js, Node.js, Express.js, MongoDB | MERN Stack

Firozabad, Uttar Pradesh, India | +91 9368220357 | rajkishoregupta716@gmail.com | github.com/shivanshugupta456 | linkedin.com/in/shivanshu-gupta-5122193aa

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and deploying 5+ responsive web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, JWT authentication, real-time features with Socket.io, and performance-focused frontend implementation. I also build Generative AI-based applications using LLM APIs, prompt engineering, and modern UI integration to create intelligent, user-friendly experiences. Strong foundation in Data Structures, Algorithms, and database design. Seeking a Full Stack Developer role to contribute to scalable product development.

TECHNICAL SKILLS

Core Skills: Full Stack Development, REST API Development, JWT Authentication, CRUD Operations, Responsive Web Design, UI Implementation, Performance Optimization, Debugging, Database Design, Real-time Communication

Languages: JavaScript (ES6+), Java, Python, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, Socket.io, WebRTC, Axios

GenAI & AI Tools: LLM APIs, Prompt Engineering, AI-assisted workflows, Generative AI application development

Databases & ORM: MongoDB, MySQL, Mongoose ODM

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Render, NPM, REST Client, JSON

Deployment: Vercel, Render, Environment Configuration, CI/CD Workflows

EXPERIENCE

Full Stack Developer | Freelance & Personal Projects

Jul 2024 - Present

- Designed and deployed 5+ full-stack web applications serving 12,000+ monthly active users across real-time communication, education, and productivity platforms.
- Architected real-time communication systems using Socket.io and WebRTC, reducing message delivery latency by 60% compared to polling-based approaches.
- Achieved 90+ average Lighthouse performance scores across all deployed applications through code splitting, lazy loading, and optimized rendering.
- Implemented secure JWT-based authentication and protected REST APIs across multiple MERN stack projects.

PROJECTS

Course Discovery Platform | Nov 2024 - Jan 2025 | React.js, JavaScript, Tailwind CSS

[Live Demo](#) | [GitHub](#)

- Developed a course discovery platform with filtering, category-based browsing, and search functionality improving content discoverability by 40%.
- Managed application state using React Context API and custom hooks, reducing prop drilling and improving component reusability across 15+ components.
- Designed a fully responsive interface optimized for desktop, tablet, and mobile screens with consistent UX across all breakpoints.

Blog Platform | Jul 2024 - Sep 2024 | React.js, JavaScript, Tailwind CSS, Markdown

[Live Demo](#) | [GitHub](#)

- Developed a blog platform with article publishing, Markdown rendering, and structured post organization for technical content creators.
- Implemented syntax highlighting for 10+ programming languages improving code readability for developer-focused content.
- Added SEO-focused meta tags and Open Graph support, improving page discoverability and social sharing engagement.

GENAI PROJECTS

Multi-Agent Research System | Streamlit, LLM APIs, Prompt Engineering

[Live Demo](#) | [GitHub](#)

- Built an AI-powered research assistant using Streamlit for an interactive and user-friendly interface.
- Integrated LLM-based workflows to support multi-step research tasks, content generation, and intelligent responses.
- Applied prompt engineering and structured user input handling to create a practical GenAI experience with clear output delivery.
- Developed Generative AI-powered applications and assistants by integrating LLM APIs with web interfaces for interactive user experiences.
- Applied prompt engineering and workflow design to create intelligent features such as content generation, conversational assistance, and task automation.
- Focused on building practical AI solutions that combine strong frontend experience with reliable backend integration and clean user interactions.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering | 2023 - 2027

ACE College of Engineering and Management, Agra | Dr. A.P.J. Abdul Kalam Technical University, Lucknow

COURSEWORK AND CERTIFICATIONS

Certification: Alpha Course - Data Structures & Algorithms with Java by Shraddha Khapra

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Web Development, Software Engineering

Practice: Solved 100+ algorithmic problems across arrays, trees, graphs, and dynamic programming using Java and Python.
